

## WORKSHOP ARJA HYYTIÄINEN - PIED DORE

18 - 22 July 2018

The five days homeworkshop at Pied Dore (18th July to 22th of July) situated on the countryside of Vendee, will focus on a ongoing project and/or the primary interests of the photographer. The starting point is the question "who am I". I would like you to work on a storyline that is the most important to you right now, photograph and work on the individual private space, transform the images inside you on paper; work with the startingpoint on your identity. Turn the skin inside out.

*I believe in translating emotion into images, feeling and experiencing life through photography, seeking and questioning, trying to see behind the visual reality. I'm interested in personal, self-experienced stories, the very individual language of expression. Arja Hyytiäinen*

## PUBLIC

the workshop is open to any amateur or professional photographer.

## MATERIAL

Bring with your work on progress (preferably on paper), laptop, camera/s, textes, drawings or any other support that can help you on the process of working and editing the photographic work. There will be a scanner, fix computer and a darkroom available.

## DESCRIPTION

The workshop will focus to deepen the personal language and the photographic work on progress. It is a practical workshop in the surrounding countryside. We start with presenting our works and projects and continue by photographing and editing so that the resulting work does not only become a style or a pretty image but a portrait of the individual who is telling his/her story.

Please think of a project you would like to realize/continue working on/bring to end.

The workshop will end on a outdoor projection of images on Sunday evening.

## PRACTICAL INFO

The workshop will be held at Pied Dore, St Florent des Bois, Vendee, starting at 10H wednesday 18.7 until sunday night 22 .7.
